**89mm and 127mm widths is not available in New Zealand

***Fabric Warranty Disclaimer:**

Blind fabrics exposed to the following environmental conditions will not be covered under Uniline's Fabric Warranty: Blinds which have a dark outward facing colour installed over western or northern facing single or double-glazed windows. Note: darker coloured aluminium window frames and mullions will also contribute. The fabric may distort due to excessive heat absorption caused by the build-up of heat between the window and the blind on hot sunny days. It is recommended that lighter outward facing colours are used if the above is applicable as lighter colours absorb less heat due to their superior reflective thermal properties. If a darker colour is still preferred, the installation of effective external sun protection and window film will reduce fabric heat absorption and distortion.

5 YEAR FABRIC WARRANTY*

Uniline's fabrics are manufactured to the highest quality. We are confident that they will stand the test of time which is why we offer an unsurpassed 5 Year Fabric Warranty*.

*Refer to Uniline website for specific exclusions. Our warranty covers the replacement cost of the fabric only from the date of purchase. We do not cover installation or component costs. Proof of Purchase is required.

GREENGUARD®

GREENGUARD® Gold Certification ensures that our interior products and materials have low chemical emissions, significantly improving the quality of the air in which the products are used. GREENGUARD® Certification is part of UL Environment.

UNIGUARD®

Developed by our R&D team at Uniline, our Uniguard® Fabric Protection system improves the durability of our fabrics by making them easier to maintain and clean. If required, clean using a mild detergent and sponge. Wipe off using clean warm water.

OEKO-TEX®

"Confidence in Textiles" is the motto for Oeko-Tex®. Fabrics undergo independent testing for harmful substances to ensure that there is no risk whatsoever to health.

PVC FREE

PVC is one of the most toxic materials found on our planet today. PVC Free is a step to ensuring our home, environment and world is moving to a sustainable, safe and healthy future.

LEAD FREE

Lead Free contains no purposefully added Lead. Ensuring that there is no risk whatsoever to health.

Note: Slight colour variances may occur between different production batches. Variances are within industry tolerances.

Refer to Uniline website for up to date fabric and swatch information.
